Driver and Car Owner must abide by all SEEKONK SPEEDWAY rules, regulations, and decisions, as well as the stipulations on this entry blank. Print or type the required information and sign where indicated. Entry will not be considered unless the entry blank contains all required information including the required signature.

Tire testing will be done at the discretion of the Seekonk officials. Refusal to allow testing to be completed will result in disqualification without exceptions. Testing will be conducted on tires used by the top five finishers during the DAV event. Selection of tire is at Seekonk discretion.

Tire testing may include use of a durometer, sniffer and sample evaluation testing. The sample testing will be performed by Blue Ridge Laboratory and if the sample is found to not conform to the benchmark tire specifications they will be disqualified. Additionally, Seekonk cannot be sued, litigated, or challenged based on the findings of the lab test. The lab test will prevail as the final ruling in the tire inspection process.

Blue Ridge Labs will test the sample in comparison to a sample provided to them by the tire manufacturer. Blue Ridge Labs will declare the tire to conform or not conform to the benchmark sample from the manufacturer.
