

SEEKONK SPORT TRUCK TIRE RULE 2018

1. Authorized Tire: Hoosier #10408 790 compound. All tires MUST be purchased from Seekonk Speedway.
2. TCA = Teams Current Allowance. TCA is the current maximum number of tires a team may have registered each week. The TCA changes after a team has raced a selective number of features. The starting TCA is 8 and after two (2) attended race events the TCA will increase by one (1) meaning each truck must race two (2) features then receive one (1) tire on the third attended event, if the feature is not raced do to a cancelation no change to TCA will be given. Teams do not have to register all their TCA tires they should only register the tires they need to race with and teams do not forfeit any of their TCA if not used.
3. Inventory. All tires purchased and registered during the race season are solely that team's inventory and may not be transferred to another team. A team may not exceed its maximum TCA count.
4. Weekly Registration. Each week teams will register the tires they want in their inventory. All race tires must be registered to be eligible for use. Once a tire number is registered it does not need to be registered again. Teams may add tires to their inventory ONLY BEFORE racing on those tires.
5. Registration Card. To register your tires place each tires serial number on the track supplied index card with your division name and truck number. Sign and date the card and bring to the track's designated area.
6. Removal from inventory. A team may remove new unused tires from its inventory by showing them to the tire official. Truck tires may NOT be returned or exchanged after sale.
7. Inspection. Tires may be inspected at any time and confiscated for testing by track officials. Tires found to not meet the manufacturer specifications will be deemed illegal and will be penalized per General Rule's section 11.7 & 11.8.
8. Penalty. Teams will be penalized tire changes if tires are found that are not registered after a race also if a team is found to have more than their TCA allows they will be placed to the rear of the field.
9. Discarded Tires. You may discard tires purchased for use at Seekonk Speedway by stacking them neatly in the designated tire area. Do not leave discarded tires in the pit area or a team may lose TCA increase at next event.

Tire testing will be done at the discretion of the Seekonk officials. Refusal to allow testing to be completed will result in disqualification without exceptions. Testing will be conducted on tires used by the top five finishers or any other selections at Seekonk's discretion.

Tire testing may include use of a durometer, sniffer and sample evaluation testing. The sample testing will be performed by Blue Ridge Laboratory and if the sample is found to not conform to the benchmark tire specifications of American Racer, Hoosier, or any tires used in competition they will be disqualified.

The lab test will prevail as the final ruling in the tire inspection process.
